East Java, Indonesia

Adaptable Software Developer with a strong foundation in Mobile Development (Android) and hands-on experience in Fullstack Web Development. Committed to delivering quality results and continuously improving skills across different technology stacks.

Education Level

Universitas Brawijaya  - Malang, Indonesia	Aug 2021 - Jul 2025
<i>Bachelor of Information Technology Education, 3.84/4.00</i>	
Participated as a committee member in faculty-level events (GENESIS 8.0 and INFINITE 2022) under the study program, supporting event organization and coordination.	
Bangkit Academy 2024 led by Google, Tokopedia, Gojek, & Traveloka  - Online	Feb 2024 - Jul 2024
<i>Certificate in Mobile Development Learning Path, 94.09/100.00</i>	
- Successfully graduated with Distinction (Top 10%), completing all mandatory courses without any red flags. - Achieved 100% completion in Instructor-Led Training, weekly consultations, team meetings, and capstone sessions. - Earned 7 professional certifications from Dicoding Indonesia, covering Kotlin, Android development (beginner to intermediate), SOLID principles, and applied machine learning for Android developers.	

Work Experiences

Kreasi Hexa Indonesia - Bekasi, West Java	Oct 2025 - Apr 2026
<i>IT Developer Intern (Fullstack Web)</i>	
An experienced Human Resources consulting firm specializing in delivering comprehensive and innovative management solutions to optimize client organizational performance.	
- Built a Human Resource Information System (HRIS) from scratch to digitalize HR operations and streamline internal workflows. - Developed a contract management module with dynamic template generation for automated employment document creation. - Implemented a secure e-signature system utilizing no-login access links to accommodate smooth signing processes for both employees and administrators. - Architected a Single Page Application (SPA) using Laravel, Vue.js, Vuetify, and Inertia.js, ensuring seamless data flow and modern UI without requiring a standalone REST API.	
Suarga - Bangkit 2024 Capstone Project - Online	Apr 2024 - Jul 2024
<i>Mobile Developer</i>	
Suarga is a mobile application that supports pregnant women in preventing stunting through ML-powered food recognition, personalized nutrition tracking, and educational articles.	
- Selected as one of the Top 50 Capstone Teams (out of 588 projects). - Awarded Best Presenter during the Capstone showcase. - Recognized among the Top 50 teams in the Project Management Challenge. - Developed backend mobile components in Kotlin, focusing on API integration, database management, and application logic. - Collaborated with Cloud Computing and Machine Learning cohorts to ensure seamless data flow and reliable app functionality.	

Organisational Experience

INFINITE 2022 - Malang, Indonesia	Sep 2022 - Dec 2022
<i>Event Staff</i>	
- Designed event concepts, structured rundowns, and coordinated with cross-functional teams. - Oversaw event execution to ensure smooth flow and successful implementation.	
GENESIS 8.0 - Malang, Indonesia	Sep 2022 - Nov 2022
<i>Student Mentor</i>	
- Guided and mentored new students throughout the orientation program. - Acted as a liaison between the committee and participants to ensure smooth information flow. - Monitored student engagement and provided support to overcome challenges. - Collaborated with fellow supervisors and committees to maintain event success.
